CHRISTIAN SCIENCE MONITOR COMPLIMENTS WORK OF EDWARD H. WESTON

In the little city of Tropico, adjacent to Los Angeles, is the portrait studio of Edward Henry Weston, whose sudden rise to prominence in the world of artistic photography has attracted much attention among those who follow such work closely, says the Christian Science Monitor.

From comparative obscurity, Mr. Weston has, in the course of a year or a little more, reached a point where he may be considered one of the leading pictorialists in his line in America, and his work across the ocean, at the London salon, has been especially noticed.

The London Salon of Photography, held in the galleries of the Royal Society of Painters in Water Colors, is the leading yearly exhibit of pictorial photography. No awards are given, it being considered sufficient honor to have a picture hung. The honorary secretary of the salon, Bertram Park, artist photographer, when asked by a London magazine his opinion as to which was the best work in the entire exhibition of pictures, by 150 photographers, most of them noted artists, answered as follows:

"Which is the best picture in the salon? That is a truly difficult question to answer, but I can tell you which I think is the best group of pictures by the same artist. They are Nos. 98, 107, 153, 169 and 172, by Edward H. Weston of Tropico, California.

"Mr. Weston is evidently a man of original ideas, sound technique, a refined artistic perception and sense for decoration. I cannot remember having ever seen any of his work before, and it is a very great pleasure to welcome a newcomer whose pictures show such a distinctive personality. No. 107, 'Toxophilus, a Decorative Study,' is truly decorative, an extremely interesting study of a nude archer. There is very little modeling in the tones, which gives one almost the impression of silhouette. No. 98, 'Summer Sunshine,' is a more elaborate arrangement, with full modeling, but nevertheless a very narrow range of tones—an admirably posed full-length figure of a laughing girl in a rather dim light of suffused sunshine. No. 153 is an essay of quite a different character—'Child Study in Gray.' A still narrower range of tones is used in delicate gray of a style which might be described as 'Cadbyesque,' a description which will be readily understood. The expression of the child's face is delightfully natural, fresh and sparkling—in its own way quite a masterpiece.

"No. 169, 'Carlota,' another portrait, is in a lower key. The model, as in the last mentioned, is lit from top and from the rear, so that her face is mostly in shadow with a halo of light illuminating her profile. There is a charming softness about the work, a softness which is so different from fuzziness, and an atmosphere of refinement and mystery which is exceedingly attractive. In the last five years at the salon we have had perhaps too many Austrian, Hungarian and German prints, among the chief characteristics of which are a forceful, almost brutal, strength, and rich decisive tone values, so that the delicate elusiveness of the pictures I have mentioned appealed at once as something which gave a fresh outlook and a welcome change."

Mr. Weston is an enthusiastic worker. He believes the quiet and beauty of a small village are conducive to a higher reach of artistic expression than the commercialism of a big city and intends to let the people find him in the little town where he has won his reputation.

W. H. La Fountain took in the San Francisco Exposition last week, stopping at Murieta Springs, where Mrs. La Fountain has been visiting several weeks.

TROPICO CITIZENS WILL INSTALL MUNICIPAL PLAYGROUND

Saturday, April 17, is Pencil Day in Tropico, and every man, woman and child should buy at least one pencil on this day. This request is a mandate from every citizen of Tropico. The proceeds from this day's work will go towards the improvement of grounds in the rear of the Magnolia Avenue School, where appliances are to be installed for a public playground. These grounds will be open for every boy and girl in Tropico when completed, and as no funds are available from any source it is up to every one to open up their hearts and pocketbooks to make this possible.

On May 1st the children of the Magnolia School will give a May-Day pole drill, and in the evening there will be served a picnic cafeteria supper, to which everybody is invited and urged to attend. The proceeds from this supper will also go into this improvement fund.

Don't forget Pencil Day and May 1st and help build the playground.

FORMER RESIDENT NOW IN THE EAST SENDS NEWS OF TRAVELS

In the "local church news" columns of the Ladoga (Ind.) Leader, the following is clipped:

During the past few weeks Elder M. M. Eshleman and wife of Tropico, California have been conducting a series of Bible studies and evangelistic services at Mt. Pleasant. Rev. Eshleman has had a wide experience, first as a standard bearer for the cause of the Union during the war of the Rebellion and since that time as a standard bearer for the Prince of Peace. He has been a hard student and for many years was connected with bible colleges in the West. He has taken up studies upon the "Work of the Holy Spirit" as found in the book of Acts and "Revelation," which epitomizes the whole work of both Old and New Testaments. In both subjects he has been an inspiration. In the subject of "Revelation," his interpretation, not entangled by the base doubts and prejudices of the age so characteristic of a small class of Bible students, sets forth most clearly the "revealed things" of prophecy. Those permitted to hear him are convinced that of a truth the Bible is the "unsealed book." He will spend a few weeks about Ladoga at the close of the present meeting before going East to continue his work.

AN APPEAL TO REASON IN MATTERS RELIGIOUS AS SEEN BY A SENTINEL READER

To the Editor:

In discussing with the people of Tropico and other places I have learned their views on the different subjects I have written on and, although, it is put in a visionary form, for, of course, no one knows what Heaven is like only it will be a beautiful home of rest and enjoyment, so the Bible says.

But the article in a general way expresses the sentiments of a great many people, not only in Tropico but other places.

As your paper has been open for discussion on different subjects of interest to the people, and we should all be subscribers or read our home town paper, I have sent this article in to your paper.

The church of Laodicea shut Christ out, but the temple of Jerusalem shut Him in. At the door of the one He stands knocking to enter; at the door of the other He is struggling to be free. Why cannot folks let Him into their temples to speak to them in all sincerity; and, then, why can they not let Him go out to help in great charity?

We have to seem to be either worldly or Pharisaical. I know not which is the worst. It is the old story of Peter wanting to build three tabernacles. People want to confine Christ. They want Him all to themselves; they want to go upon some mount and have Him exclusively their own. Then He becomes the Priest's Christ, the devotee's Christ. If Christ should come this morning, where would we look for Him? Of course we should all go to church, expecting Him to appear there, but would He? If He were to do as he use to, would he not be more likely to appear down by the beach or up in the mountains. I know this sounds strange, but that was the way it sounded to church folks 2000 years ago. When he preached his greatest sermon he preached it on the mountains. When he taught the multitude he was down by the seaside. When Christ appeared to his disciples, after resurrection, was it in church? O ye people who would shut Christ up in a church and would dole out the Son of God in dribs on the Sabbath day, hear! The real Christ is out among men. He will come in the church, but he will not be confined there. He will go out into the mountains and down by the seaside still. He is for men. If He was here in Tropico I wonder which He would be most interested in—the wailing of the boys and girls of the "munity for higher ideals of life, or the less of old-fashioned creeds that either keep the young folks from believing in Christ, or shut God out of their lives entirely; or the good elderly people who forget they were ever young and would be shocked if they saw a boy or girl looking at the comic paper on Sunday while his mother was scrubbing him up to send him where he will hear how wicked he is and what an indecent thing he has done in going to a picture show, put on by a patriotic order, the other evening. After being told what awful sins he has committed, and a dozen different rules laid down in regard to what he should do and should not do, he comes home, a cloud on the childish face, and asks his parents if they think that the teachers and pupils and different clubs of the city and many people who belong to the different denominations, also the outside people who don't belong to anything, are going to the bad place.

The child meditates for awhile then says, I believe I would rather go where I could see my friends and teachers, and girls and boys than to go where stern people with awful severe eyes are watching you and saying that if you children don't watch out the goblins will get you.

Then it was up to the parents to remove the false impressions the child had received, and the parents say to the child, if you do unto others as you would have them do unto you; be kind to your fellowmen and follow the life of Christ according to your enlightenment, I believe you will see Heaven in the future life, and I should

not wonder but what there will be modern things there. And I would be surprised but that there would be a picture show, it may not be called by that name, but there will be pictures shown with beautiful music; there will be plays of interest, tableaux, and in some there will be children like you, dear. God won't have one dull moment, for eyes have not seen nor ear heard of the wonderful things God has prepared for those who love Him and keep His commandments. The children won't be afraid of God for He loves the boys and girls and will enter into your lives and amusements. He won't ask you if you belong to any denomination, for there won't be any there.

There will be God's people who have lived up to their enlightenment of individual responsibility to God.

Then possibly you will see the good people who looked at you with awful eyes come hobbling along, knocking at the door. An angel will go to the door and say, "Well, you are late; where have you been?"

They answer, "We have been down to the place where the goblins will get you if you don't watch out, and they would not keep us there, because we are too good and so we've come up here. We belong to the— (naming some denomination), and all the rules and creeds of the denomination we belonged to, while on earth. Dealt very strictly with the people, or boys and girls, who would dare go against one of our rules or think any different than we did."

The angel answers, "We have no denominations up here. Our people and our children worship God because they have been educated to love Him by his loving example and interest in them. But as they can't find any place where they want you, you may come in and stay here if you like it."

Well, they look around. Sister Peggy says to Brother William, "Well if there aren't those awful boys who went to a picture show, etc. And there are those awful girls and their parents. Someone told us they saw them one night at a picture show. Oh! this is awful; it is no place for us. And there is that picture show man. We must have come to the wrong place. Isn't there another place where the good people go?"

"No," says the angel, "there is only this place."

"Well I guess we'll have to be contented here until we reform the people and children," they say. "Let's begin by getting that picture show man away from here."

They ask the angel why he is there. The angel said, "One time there was a cripple boy who had to support his mother and sister. They had neither fuel nor warm clothes. The mother was sick. This picture show man gave an evening for him and gave him half of the proceeds."

"In as much as ye did it unto the least of these, my brethren, ye did it unto me," quoted the angel.

God said to the angel, "Let them remain, they didn't intend any harm. They were bound by creeds and rules on earth, but we don't have them up here." And the people said, praise the Lord!

The fable being ended the child looked up to his mother and father with a happy countenance and says, I want to go where God is when I die. The parents lifted up their hearts in thanks that the childish faith is not destroyed but strengthened by the fairy illustration they told him.

This is not means to be ineffectual. I remember as a child my father belonged to one denomination and my aunt and uncle on my mother's side to another, and when they would visit each other they would argue. Then I would bring the bible to them to settle the argument or to prove they were right in their belief. One would say we burn forever and ever, another would say we burn up root and branch. One would say our souls went to God when we die, the other would say we slept until the resurrection. In my childish mind I wondered

WORKINGS OF TORRENS LAW EXPLAINED BY JOHN N. METLALF

The purpose of the Torrens Land System, as incorporated in the recently amended California statutes, is twofold, viz.: Certification of land titles and the simplification of transfers of real estate. Any estate or interest in lands (except an undivided interest or an easement) may be brought under the operation of the act and registered. Consequently its operations have a direct bearing upon real estate matters generally, and it is important that all who own or expect to own property should know something of the system.

Under the Torrens system, in probate proceedings, the lands of estates (within the State) being probated may be brought under the operation of the act by virtue of the decree in probate, registered. This is also true in an action to quiet or establish title.

It is also permissible for several persons to join in a single application to have the lands of all of them registered; and by virtue of the decree made therein, the holdings of the applicants may be brought under the operation of the act.

To protect against fraud of every kind and character, the applicant must furnish the court a definite description of himself and the character (legal status) in which he makes the application; a definite description of the land and its character, and must state the names and give the addresses of all persons having or claiming to have an interest in the land sought to be registered.

All persons having or claiming to have any interest in the estate or land sought to be registered must be notified of the fact that application for registration of the land has been made before proceedings upon the application for registration can be had. The rights of all persons having or claiming to have any interest or estate in lands are protected against fraudulent registration, fraud in such proceedings being punishable by fine not to exceed \$5000, or by imprisonment not to exceed five years, or by both fine and imprisonment.

Registration of the title to the lands, pursuant to the decree of the court, as provided for by the act, after one year from the date of registration gives to the holder of the certificate of title a title good against the world.

After Registration

Under the Torrens system, the transfer of real estate is simplified. After the initial registration, abstracts of title are discarded and certificates of titles companies made unnecessary. From that time on the State itself affects the transfer of the title whenever it changes hands.

The discarding of abstracts after the initial registration of the land under the Torrens system is held by the friends of the new plan to be one of its chief advantages. Every time real estate is transferred or subjected to mortgage or loan, the certificate of title issued by a title insurance company must be brought down to date at the expense of the land owner. Under the Torrens system, certificate of title is always down to date.

Under the Torrens system the transfer of registered lands is effected by presenting to the registrar the deed of conveyance or other instrument from the registered owner and surrendering the owner's duplicate certificate of title. The transfer is made on the record and the title so transferred vests in the transferee to whom the new duplicate of title is issued. The old one is cancelled.

The registered title under the Torrens system is guaranteed for all time. There is back of it the decree of a competent court of the State.

Under the Torrens system there is provided an insurance fund for the reimbursement of any person injured through the registration of any land or title under the act. This reimbursement is to be equal to the market value of the land so registered and through

TROPICO CAN PURCHASE AND OPERATE A MUNICIPAL LIGHTING SYSTEM

In a short time the Tropico Chamber of Commerce will appoint a committee who will look into the advisability of voting bonds to acquire the tangible property of the Pacific Light and Power Co. in the city. There seems to exist a misunderstanding in regards to whether it is possible to make such a purchase in case bonds are voted.

The following articles copied from a report of the "opinion and order" of the Railroad Commission of the state of California in the matter of "the application of Pacific Light and Power Corporation for permission to purchase the tangible properties of Glendale Light and Power Company, and of Glendale Light and Power Company to sell said property to Pacific Light and Power Corporation," may show some light upon the question.

The property to be sold at that time (October, 1912) consisted of the entire distributing system of Glendale Light and Power Company, located in Tropico and owned by L. C. Brand, who, together with an engineer of the Pacific Light and Power Corporation, estimated the same to be worth \$5200.

August 15, 1912, the city of Tropico entered into an agreement with the Pacific Light and Power Corporation, effective for five years after November 1, 1912, to install and maintain a street lighting system, and also to furnish electricity for commercial and domestic purposes.

After all parties had presented their evidence all agreed that the commission grant the application subject to certain conditions demanded by E. S. Ayres, representing certain citizens of Tropico.

The orders of the commission and proviso demanded were: "(3) At any time within five years from and after Nov. 1, 1912, Pacific Light and Power Corporation shall, on demand of the City of Tropico, expressed by resolution of its city council, sell to said city the property which it is now to acquire from Glendale Light and Power Company, together with such improvements and additions as it may in the meantime have made thereto in the city of Tropico, including its proposed street lighting system in said city, for the sum which said Pacific Light and Power Corporation shall pay to said Glendale Light and Power Company for its property, not exceeding the sum of \$5200, and adding thereto one hundred and ten (110) per cent of such amounts of money as said Pacific Light and Power Corporation may hereafter expend for labor and materials on said improvements and additions, including said lighting system. Pacific Light and Power Corporation shall file with the city clerk of Tropico monthly statements showing the amounts of moneys so expended for said improvements and additions. In case of disagreement as to the amount of money properly payable under this paragraph by the city of Tropico for said property, in case the city desires to purchase the same, the sum shall be fixed by arbitrators, of whom one shall be appointed by the city of Tropico and one by the Pacific Light and Power Corporation, and the third by the two selected; or, if the parties so desire, they may agree on some other method of ascertaining the price so to be paid."

The commission stated verbally that if necessary they would send engineers here to look over and appraise the property with a view of obtaining a working basis.

The order was signed by Jno. M. Eshleman, Alex. Gordon, Max Thelen and Edwin O. Edgerton, commissioners, and sealed by Assistant Secretary of the commission.

The matter was brought before the commission by S. M. Haskins for Pacific Light and Power Corporation; L. C. Brand for Glendale Light and Power Company, Frederick Baker for city of Tropico and E. S. Ayres for certain citizens of Tropico.

At this day and age a progressive community can not be without a high school in their midst, where the younger generation may receive instruction beyond that given them in the elementary schools. The results accomplished by this training can be but slightly told when the young people receive their diplomas. IT should have its telling effects on the alumni. We have in our midst a high school of which we can be truly proud. Its splendid faculty, its increasing equipment, its high standard of scholarship, and its enrollment of a fine group of young people, all of which we may be proud. But as to the alumni—in what way are they identifying themselves with the high school? How much interest are they taking in their Alma Mater? There will be an opportunity soon for them to show their loyalty to the Alumni Association by giving the executive committee of the association all the assistance they can in producing a play that will be a treat to all.

AN APPEAL TO REASON

(Continued from page 1)

which was right and which was wrong. Would my father go to Heaven or would my aunt and uncle go there, and then I'd think what an awful thing if I ever went to heaven and found out that either my father or aunt and uncle were burning up. I'd even wake up in the night and shudder. They were good people. No one ever came to their door and was turned away when in trouble or in need of assistance. But they were set in their belief. When I was at home my father talked his views to me. When I was at my aunt and uncle's they talked their views to me. All were Christians though. As I grew older I formed my own ideas of what was best for the masses of people. As I went among the different denominations there was good in all of them, but their narrow beliefs and creeds kept many people out of the churches who would otherwise have joined them.

What is needed is a church of the people, by the people, for the people, and worship God in his own way with out being hampered to death by forms. A church member said the other day, "I do want to go some where to worship God and I believe in attending a place of worship and helping in the support of the gospel according to our blessings, but I don't believe in the narrow ways and endless criticisms, and sometimes when I am tired by the worries and cares of the children my husband and I will go to a picture show, but if you do go you feel as if you was not wanted in the church by the pastors."

I said God wants you there. What makes you care if you are wanted or not by anyone else?

When I go to church I don't care if they want me or not. And if I want to read a paper on Sunday, I read it. If I want to go to a picture show some evening, I go and I say my prayers, too, and love God. The time has passed when people were burned at the stake because they didn't worship God according to man's ideas. I believe Tropic needs places of innocent amusements for the young people to be owned by the city. And if a pool room could be run on a free basis by the city, with a good moral man at the head and no betting or obscene language used, and a bowling alley, punching bags, literature, tennis courts, basketball, games, etc., where the boys could go or the young men, who now are shut up in boarding houses, either to set in their rooms or to go to Los Angeles for amusements, instead of having a place for recreation in their own home town. They will find it some where, and if our own town is too dainty and fair, they'll find it in the larger cities where there are many evils attached to amusements. Have a place where they can have debates, entertainments, music, plays, tableaux, and an orchestra.

This city is full of talented people. Get them together and do something instead of discussing who is going to Heaven and who is going the other way—one pulling one way, one the other.

Work together and make Tropic so interesting for the people that we will have Herven here. The other cities will take notice of the wonderful amusements Tropic has for its young people and do likewise.

In regard to the pool room, many people were in favor of places of innocent amusement for young people, especially young men and boys undenominational, conducted in a proper manner and owned by the city, not

near enough to any private residential house to disturb the people. If conducted improperly a pool room becomes a nuisance to the city. If conducted properly it is of great benefit connected with good literature and other amusements.—519 Victor Court, Tropic, Cal.

the registration of which the party has been injured. The one injured has four years within which to bring his action for reimbursement.

Under the Torrens system, by inspection of the certificate of title, the exact status of the holder's title can be ascertained at any moment. The certificate must show who the true owner is and all charges against the land so registered.

Under the Torrens system, when land has once been registered, thereafter title by adverse possession can not be acquired, no matter what the length of the possession may be. Community property registered under the Torrens system as such cannot be transferred, mortgaged or encumbered or otherwise disposed of by the registered owner thereof without the written consent of both spouses.

It is interesting to note that numerous States of the Union, many of the countries of Europe and the three largest English-speaking cities of the world—London, New York and Chicago—have adopted the Torrens Title System.

HIGH SCHOOL GRADUATES WILL STAGE PLAY

The Alumni Association of the Tropic-Glendale High School has until recently been a mere nonentity, due to lack of interest of the graduates. Last spring, however, Miss Emily Elias, a teacher in the Tropic Grammar School, was elected president of the organization, and has since made a decided effort to draw the two hundred members into a closely allied body, which will be able to exercise a potent influence over the affairs of the High School and community.

As an outcome of this activity the Association is undertaking to stage the most ambitious effort of this kind ever produced in the valley. Plans for the production of "Polly of the Circus" have been fully developed. It is a play which has enjoyed long popularity on the professional stage and is to be under the capable direction of Mrs. Elinor Lincoln Brown of this city. There is a capable cast of the members who have had professional experience, who have volunteered their services.

The Palace-Grand theater has been reserved, as it is the only theater in the valley with sufficient stage room to accommodate the production. April 22 and 23 is the date.

The proceeds of the play are very appropriately to be applied to the scholarship fund which has been established in the High School.

TROPICO BOY SCOUTS SECURE NEW QUARTERS. OTHER NEWS OF INTEREST

Mr. Ludin has proved to be a hustler. Already he has secured some of the most prominent business men in Tropic to be on the Scout Council, which will back the boys up.

The troop council consists of Mr. Weston, Mr. Smith, Mr. Webster, Mr. Goodsell, Mr. Harvey, Mr. Martin, Dr. Duncan, Mr. Van Wie, Mr. Carmack, and Mr. Van Eaton. There will probably be other men of Tropic in this Scout Council in the near future.

The report of the Secretary about troop members:

Patrol Officers — Patrol Leader, Ralph Bellinger; Assistant Patrol Leader, Russell Harrison; Sergeant-at-arms, Harold Benner; Treasurer, Robert Carmack; Secretary, Leslie Kepler; Color Bearer, Ralph Saltrum.

Troop Members Rank
Ralph Bellinger.....First-class Scout
Russell Harrison.....First-class Scout
Harold Benner.....First-class Scout
Robert Carmack.....First-class Scout
Ralph Saltrum.....Tenderfoot Scout
Edward Kutch.....Tenderfoot Scout
Harry Gormon.....Tenderfoot Scout

Notice is hereby given that Troop No. 1, Tropic Boy Scouts of America, is no longer connected with the M. E. church. The reason for this is that the scouts wished to make it possible for all the boys in Tropic, who are of scout age, to join the troop. No applications will be received by the secretary until further notice in this paper.

Mrs. Richardson has given the scouts the use of her building on Tropic avenue for their headquarters. This was greatly appreciated by the scouts, the troop officers and by the troop council. Improvements are now being made.

Mr. J. G. Goodsell has resigned his office as scoutmaster to Mr. Ludin. Mr. Ludin has had many years' experience with boys and is just the man the scouts need.

The troop has secured the services of three well known men in Tropic to be assistant scoutmasters, Mr. Franklin, Mr. Dwight Stephenson and Mr. H. D. Cutting.

Something like two years ago the local branch of the Christian and Missionary Alliance was organized.

In St. Mark's Episcopal Church, Glendale, there will be the three hours' service on Good Friday, beginning at 12 m.

In the evening, at 7:45, the choir will sing "Stainer's Crucifixion." A silver offering for the benefit of the choir. The Glendale Commandery of Knights Templar will attend in a body the 11 o'clock service on Easter day.

A mission will be held in the church very evening at 8 o'clock for a week, excepting Saturday, beginning with Easter day.

The readers of this paper will be
pleased to learn that there is at least one
dreaded disease that science has been
able to cure in all its stages, and that is
Catarrah. Hall's Catarrah Cure is the only
positive cure now known to the medical
fraternity. Catarrah being a constitutional
disease, requires a constitutional treat-
ment. Hall's Catarrah Cure is taken in-
ternally, acting directly upon the blood
and mucous surfaces of the system, there-
by destroying the foundation of the dis-
ease, and giving the patient strength by
building up the constitution and assisting
nature in doing its work. The proprietors
have so much faith in its curative pow-
ers that they offer One Hundred Dollars
for any case that it fails to cure. Send
